

Part 1: SHORT-TERM GOALS

Short-term goals for today:	Steps to reach them:
Manage emotional regulation	Pay attention to when I am activating Practice stepping back from the situation
Improve my nutrition	Monitor my current nutrition habits Introduce sustainable small changes I can find.
Get help working with my dog's reactivity	Schedule an appointment.
Work on a promotion at work	Stay in close contact with my manager about expectations and areas for improvement. Make sure that my work is the quality that I expect.
Plan for NW Chocolate Festival	Look at the schedule of events Buy tickets

Part 2: Long-Term-Goals

1. Long-term goal:	Senior role in my company
2. Steps to achieve this goal:	Regularly work with my manager to identify my challenges and find opportunities. Take advantage of social events hosted by the company. Be consistent daily. Use what I learn in DVIT to work with my coworkers in a healthy way.

Focus on individual career advancement opportunities.
Maintain boundaries as they change over time.

	My current habits and the way they affect how I feel:	What can I do to improve my current habits?
1. Food and diet	I'm not happy with my current nutrition and how I eat.	Eat more whole foods made at home. Meal planning Stick to new habits If tools I used last time don't work, make new tools.
2. Sleep hygiene	I am not too bothered by my current sleep hygiene.	Go to bed at a consistent time. Go to bed earlier Wear my CPAP
3. Working out	I would like to get to the gym more, but I know I am doing as much as I can at this time.	Add fixed days I always go without excuse.
4. Physical illness and stress	I am happy with my physical status and stress.	I can make adjustments to nutrition and working out.
5. Addictions	I could tolerate being on my phone less.	Get a timed phone locker. Get a lightphone or another low function alternative.
