

M9: Mindful of Negative Judgments

When and where (Situation):	Judgment:	Emotion:	Outcome (What I did after):
Person at Gym doing exercise wrong	They're going to hurt themselves, but it's not for me to say something.	Sad. I want to offer help, but know it's inappropriate.	Appreciate that there is someone there to remind me that as an old person, I need to pay attention to my own form so I don't hurt myself.
Kids riding dirt bikes on the sidewalk	They aren't responsible enough to ride those. They shouldn't be on the sidewalk with them, someone will get hurt.	Angry, annoyed	Being not my time to get hurt, I kept walking.
Found dog poop in the park where I was trying to play with my dog	People use this as a common space. Children use this space. Dog owners should clean up after their dogs. If you can't take care of your dog, maybe you need to find someone who can.	Angry, annoyed	Cleaned up the mess and played with my dog.
Someone sleeping on the mattress behind local CVS	They need to find a better place to stay.	I feel bad for them.	I kept walking about my business. Surely they didn't want woken up and it was probably nice to have a mattress.
I found some work that I could immediately tell was just bad	We hire experienced people who should not be generating low quality work.	Angry and frustrated	We talked about how to make improvements to the work. I share sources I use to grow and improve.
